Course Description

This practical and highly-interactive course includes real-life case studies where participants will be engaged in a series of interactive small groups and class workshops.

This course is designed to provide participants with a detailed and up-to-date overview of behavioral based safety. It covers the understanding of behavior; why people are prepared to take unnecessary risk; the observing and assessment of behavior at work; the 'latent' and 'active' failure; how to change at risk behavior (latent and active); how to introduce these tools into their organization; and the improvement of risk perception within the organization.

During this interactive course, participants will learn the seven main categories of human failure; the safety culture and how can it be measured and improved; conducting safety culture survey; and developing action plans and creating continuous improvement.

Course Objectives

Upon the successful completion of this course, participants will be able to:-

- Apply and gain an in-depth knowledge on behavioral based safety
- Define behavior and discuss why people are prepared to take unnecessary risk
- Observe and assess behavior at work as well as recognize ‘latent’ and ‘active’ failure and change at risk behavior
- Give an introduction to the tools into their organization and implement and improve risk perception within the organization
- Identify the seven main categories of human failure
- Perform safety culture and how can it be measured and improved
- Conduct a safety culture survey and develop action plans and create continuous improvement

Exclusive Smart Training Kit - H-STK®

Participants of this course will receive the exclusive “Haward Smart Training Kit” (H-STK®). The H-STK® consists of a comprehensive set of technical content which includes **electronic version** of the course materials, sample video clips of the instructor’s actual lectures & practical sessions during the course conveniently saved in a **Tablet PC**.

Who Should Attend

This course provides an overview of all significant aspects and considerations of behavioral based safety for all safety engineers, process engineers and maintenance engineers.

Accommodation

Accommodation is not included in the course fees. However, any accommodation required can be arranged at the time of booking.
