

COURSE OVERVIEW IE1052 Competency in Explosive Atmospheres (IEC-Ex Equipment)

Course Title

Competency in Explosive Atmospheres (IEC-Ex Equipment)

Course Date/Venue

December 15-19, 2024/Club B Meeting Room,
Ramada Plaza by Wyndham Istanbul City Center,
Istanbul, Turkey

Course Reference

IE1052

Course Duration/Credits

Five days/3.0 CEUs/30 PDHs

Course Description

This practical and highly-interactive course includes various practical sessions and exercises. Practical sessions will be performed in a state-of-the-art CompEx laboratory.

This course is designed to provide participants with a detailed and up-to-date overview of explosive atmospheres (IEC-Ex Equipment). It covers the basic requirements of explosion protection, the HSE requirements, regulations and responsibilities; the Ex terms, definitions, classification and zones; the gas groups, temperature classes and Ex markings; the safe work methods in hazardous areas; and the Ex protection techniques including selection and installation requirements.

During this interactive course, participants will learn the requirements for cables and terminations; testing and using of measurement equipment in a systematic manner; glanding of non-armored cables, armored and barrier glands; the documentation requirements and safe work methods in hazardous areas; the Ex protection techniques covering maintenance and inspection requirements; and the installation, testing, maintenance, visual, close and detailed inspection.

Course Objectives

Upon the successful completion of this course, each participant will be able to:-

- Get certified in IECEX equipment Ex 001, 003, 004, 006, 007 & 008
- Identify the basic requirements of explosion protection including the HSE requirements, regulations and responsibilities
- Discuss the Ex terms, definitions, classification and zones
- Recognize the gas groups, temperature classes and Ex markings
- Apply the safe work methods in hazardous areas as well as the Ex protection techniques including selection and installation requirements
- Identify the requirements for cables and terminations as well as test and use the measurement equipment in a systematic manner
- Discuss glanding of non-armored cables, armored and barrier glands
- Identify documentation requirements and apply safe work methods in hazardous areas
- Carryout Ex protection techniques covering maintenance and inspection requirements
- Perform installation, testing, maintenance, visual, close and detailed inspection

Exclusive Smart Training Kit - H-STK®

Participants of this course will receive the exclusive “Haward Smart Training Kit” (H-STK®). The H-STK® consists of a comprehensive set of technical content which includes **electronic version** of the course materials, sample video clips of the instructor’s actual lectures & practical sessions during the course conveniently saved in a **Tablet PC**.

Who Should Attend

This course provides an overview of all significant aspects and considerations of explosive atmospheres for experienced engineers/technicians and for electrotechnical and craftsperson who need to develop and demonstrate their competency in the selection, installation, inspection and maintenance of electrical and mechanical equipment and apparatus in explosion-hazardous atmospheres, through an internationally accredited, certificated competency validation scheme.

Training Methodology

All our Courses are including **Hands-on Practical Sessions** using equipment, State-of-the-Art Simulators, Drawings, Case Studies, Videos and Exercises. The courses include the following training methodologies as a percentage of the total tuition hours:-

- 30% Lectures
- 20% Practical Workshops & Work Presentations
- 30% Hands-on Practical Exercises & Case Studies
- 20% Simulators (Hardware & Software) & Videos

In an unlikely event, the course instructor may modify the above training methodology before or during the course for technical reasons.

Course Certificate(s)

- (1) IECEX Certification of Personnel Competency will be issued to candidates who have successfully passed the course and successfully completed the practical and theoretical assessment.

Units of Competence (According to OD 504):

- Ex 001 - Apply basic principles of protection in explosive atmospheres
- Ex 002 - Classification - Based on IEC 60079-10 series
- Ex 003 - Installation - Based on IEC 60079-14
- Ex 004 - Maintenance - Based on IEC 60079-17
- Ex 006 - Testing of installations - Based on IEC 60079-14
- Ex 007 - Visual & Close Inspection - Based on IEC 60079-17
- Ex 008 - Detailed Inspection - Based on IEC 60079-17
- Ex 009 - Design Electrical Installations - Based on IEC 60079-14
- Ex 010 - Audit Inspection - Based on IEC 60079-17

List of standards:

- Area Classification according to IEC 60079-10
- Inspection according to IEC 60079-17
- Installations according to IEC 60079-14

Language used for assessment: **English**

Limitations (According to OD 504): **N/A**

Comments:

- (2) Official Transcript of Records will be provided to the successful delegates with the equivalent number of ANSI/IACET accredited Continuing Education Units (CEUs) earned during the course.

Academic Director

Howard Technology has been approved as an Authorized Provider by the International Association for Continuing Education and Training (IACET) in accordance with the rules & regulations of the International Association for Continuing Education & Training (IACET). IACET is an international authority that evaluates programs according to strict, research-based criteria and standards. The CEU is an internationally accepted uniform unit of measurement in quality courses of continuing education.

Howard Technology is accredited by:

- BAC
- ilm
- ACET
- City & Guilds
- API

P.O. Box 26070, Abu Dhabi, United Arab Emirates | Tel.: +971 2 3091 714 | Fax: +971 2 3091 716 | E-mail: info@haward.org | Website: www.haward.org

Certificate Accreditations

Certificates are accredited by the following international accreditation organizations: -

- 
The International Accreditors for Continuing Education and Training (IACET - USA)

Haward Technology is an Authorized Training Provider by the International Accreditors for Continuing Education and Training (IACET), 2201 Cooperative Way, Suite 600, Herndon, VA 20171, USA. In obtaining this authority, Haward Technology has demonstrated that it complies with the **ANSI/IACET 2018-1 Standard** which is widely recognized as the standard of good practice internationally. As a result of our Authorized Provider membership status, Haward Technology is authorized to offer IACET CEUs for its programs that qualify under the **ANSI/IACET 2018-1 Standard**.

Haward Technology's courses meet the professional certification and continuing education requirements for participants seeking **Continuing Education Units (CEUs)** in accordance with the rules & regulations of the International Accreditors for Continuing Education & Training (IACET). IACET is an international authority that evaluates programs according to strict, research-based criteria and guidelines. The CEU is an internationally accepted uniform unit of measurement in qualified courses of continuing education.

Haward Technology Middle East will award **3.0 CEUs** (Continuing Education Units) or **30 PDHs** (Professional Development Hours) for participants who completed the total tuition hours of this program. One CEU is equivalent to ten Professional Development Hours (PDHs) or ten contact hours of the participation in and completion of Haward Technology programs. A permanent record of a participant's involvement and awarding of CEU will be maintained by Haward Technology. Haward Technology will provide a copy of the participant's CEU and PDH Transcript of Records upon request.

- 
British Accreditation Council (BAC)

Haward Technology is accredited by the **British Accreditation Council** for **Independent Further and Higher Education** as an **International Centre**. BAC is the British accrediting body responsible for setting standards within independent further and higher education sector in the UK and overseas. As a BAC-accredited international centre, Haward Technology meets all of the international higher education criteria and standards set by BAC.

Accommodation

Accommodation is not included in the course fees. However, any accommodation required can be arranged at the time of booking.

Course Instructor(s)

This course will be conducted by the following instructor(s). However, we have the right to change the course instructor(s) prior to the course date and inform participants accordingly:

Mr. Shafaque Nasir, BSc, IECEx, is a Senior Instrumentation & Control Engineer with extensive years of experience within the **Oil & Gas, Refinery, Power and Utility** industries. His expertise widely covers in the areas of **Hazardous Area Classification, Explosive Atmosphere Inspection, Ex Instrument Inspection, CompEx Installation, & Inspection, Hazardous Area Classification & Intrinsic Safety, Explosion Proof Ex Equipment, Electrical Equipment Inspection, E&I Installation, Cable Installation, LV/MV Switchgear Installation, DC Batteries Installation, E-Modules Installation, Bus Duct Installation, Lighting & Grounding Installation, Field Instrument Installation, DCS & Control System Installation, E&I Supply, Installation, Wiring & Commissioning, Inspection Test Plan (ITP), Cable Trays, Cable Route Drawings, Cable Schedules, Tube & Fittings, Material Supply & Installation, Gas Analyzer, Instrument Junction Boxes, Motors, Compressors CCTV & PA Systems, BMS Commissioning, Building Management Systems, Graphical User Interface and Fire Protection System.**

During his career life, he has gained his practical and field experience through his various significant positions as the the **Project Manager, Instrumentation Engineer** and **Junior Instrumentation Engineer** from various companies such as the IndEx, Emirates Electrical & Instrumentation Company (EEIC), Control & Applications Emirates (CAE) and Zicom Electronic Security Solutions Ltd.

Mr. Shafaque has a **Bachelor’s degree in Instrumentation & Control Engineering**. Further, he is a **Certified Instructor/Trainer**, a **Certified IECEx CP TS121.0116**, a **Certified ExAM Technician** and a **Certified Automation Engineer Diploma (PLC & SCADA Programming)**. He has further delivered numerous trainings, seminars, courses, workshops and conferences internationally.

Course Fee

Abu Dhabi	US\$ 6,500 per Delegate + VAT . This rate includes H-STK® (Haward Smart Training Kit), buffet lunch, coffee/tea on arrival, morning & afternoon of each day.
Istanbul	US\$ 7,000 per Delegate + VAT . This rate includes Participants Pack (Folder, Manual, Hand-outs, etc.), buffet lunch, coffee/tea on arrival, morning & afternoon of each day.

Course Program

The following program is planned for this course. However, the course instructor(s) may modify this program before or during the course for technical reasons with no prior notice to participants. Nevertheless, the course objectives will always be met:

Day 1

0730 - 0800	Registration & Coffee
0800 - 0815	Welcome & Introduction
0815 - 0830	PRE-TEST
0830 - 0850	Ex 001: Basic Requirements of Explosion Protection
0850 - 0910	Ex 001: HSE Requirements
0910 - 0930	Ex 001: Regulations & Responsibilities
0930 - 0945	Break
0945 - 1030	Ex 001: Ex Terms & Definitions
1030 - 1115	Ex 001: Classification
1115 - 1215	Ex 001: Zones
1215 - 1230	Break
1230 - 1300	Ex 001: Gas Groups
1300 - 1340	Ex 001: Temperature Classes
1340 - 1420	Ex 001: Ex Markings
1420 - 1430	Recap
1430	Lunch & End of Day One

Day 2

0730 - 0830	Ex 003 & 006: Safe Work Methods in Hazardous Areas
0830 - 0930	Ex 003 & 006: Ex Protection Techniques - Selection & Installation Requirements
0930 - 0945	Break
0945 - 1100	Ex 003 & 006: Requirements for Cables & Terminations
1100 - 1215	Ex 003 & 006: Testing & Use of Measurement Equipment
1215 - 1230	Break
1230 - 1330	Ex 003 & 006: Glanding - Non-Armored Cables, Armored & Barrier Glands
1330 - 1420	Ex 003 & 006: Documentation Requirements
1420 - 1430	Recap
1430	Lunch & End of Day Two

Day 3

0730 - 0930	Ex 004, 007 & 008: Safe Work Methods in Hazardous Areas
0930 - 0945	Break
0945 - 1100	Ex 004, 007 & 008: Ex Protection Techniques - Maintenance & Inspection Requirements
1100 - 1215	Ex 004, 007 & 008: Ex Protection Techniques - Maintenance & Inspection Requirements (cont'd)
1215 - 1230	Break
1230 - 1420	Ex 004, 007 & 008: Documentation Requirements
1420 - 1430	Recap
1430	Lunch & End of Day Three

Day 4

0730 – 0830	<i>Practical Practice & Practical Assessment: Ex 003 - Installation</i>
0830 – 0930	<i>Practical Practice & Practical Assessment: Ex 006 – Testing</i>
0930 – 0945	<i>Break</i>
0945 – 1100	<i>Practical Practice & Practical Assessment: Ex 004 – Maintenance</i>
1100 – 1215	<i>Practical Practice & Practical Assessment: Ex 007 – Visual & Close Inspection</i>
1215 – 1230	<i>Break</i>
1230 – 1420	<i>Practical Practice & Practical Assessment: Ex 008 – Detailed Inspection</i>
1420 – 1430	Recap
1430	<i>Lunch & End of Day Four</i>

Day 5

0730 – 0830	<i>Theoretical Assessment: Ex 001 – Apply Basics</i>
0830 – 0930	<i>Theoretical Assessment: Ex 003 – Installation</i>
0930 – 0945	<i>Break</i>
0945 – 1100	<i>Theoretical Assessment: Ex 006 – Testing</i>
1100 – 1215	<i>Theoretical Assessment: Ex 004 – Maintenance</i>
1215 – 1230	<i>Break</i>
1230 – 1330	<i>Theoretical Assessment: Ex 007 – Visual & Close Inspection</i>
1330 – 1400	<i>Theoretical Assessment: Ex 008 – Detailed Inspection</i>
1400 – 1415	Course Conclusion
1415 – 1430	<i>Presentation of Course Certificates</i>
1430	<i>Lunch & End of Course</i>
